FEATCHERS:-

1. VISHWAKARMA BRAND Disc Plough can handle the toughest ploughing jobs for extremely hard ground and soil with large roots and other obstructions, one can obtain outstanding penetration performance.
2. For soft sticky ground and sandy soil, depth can be controlled through the built-in depth control.
3. The under frame and unit-to-unit clearances are adequate to cope with trashy conditions.
4. Perfect alignment of the sub-beams carrying the Disc bottoms is maintained by virtue of the frame construction.
5. An adjustable and spring-loaded furrow wheel takes care of the side draft and the implement moves smoothly.
6. Disc tilt angle can be varied in three stages to perform on various types of soils.

ADVANTAGES:-

1. Durable & Long lasting.
2. It is directly mounted to the tractor.
3. Best quality Boron steel discs used.
4. Low maintenance.
